

REST API Reference

Version:	v2 (2024 update)
Author:	Priya Mehta
Date:	2024-03-15
Status:	IN REVIEW

WARNING: Under review by Priya. Some v2 endpoints not yet documented. Ask her directly.

Base URL

https://api.acme.com/v2

Authentication

Bearer token (OAuth 2.0 / Keycloak). See Auth Service docs.

Endpoints

GET /products

Returns paginated product list.
Query params: page, size, category

POST /orders

Creates an order. Returns order ID and estimated delivery.

GET /orders/{id}/status

Polls order status. NEW in v2.

POST /notifications/subscribe

Subscribe to webhook events. NEW in v2. (not fully documented yet)

Breaking Changes from v1

- + Auth changed from API Key to OAuth 2.0
- + All timestamps now UTC ISO 8601
- + /orders response schema changed (see Priya's Confluence page)
