

REST API Reference - LATEST

Version: v2.1
Author: Priya Mehta + Dev Team
Date: 2024-08-30
Status: THIS IS THE ONE - probably

WARNING: Priya says this is latest but the /notifications endpoint changed again in Sept. Ask her.

Base URL

https://api.acme.com/v2

Endpoints (complete list)

Products

- + GET /products - list (paginated)
- + GET /products/{id} - single product
- + POST /products - create (admin only)

Orders

- + POST /orders - create order
- + GET /orders/{id} - get order
- + GET /orders/{id}/status - poll status
- + DELETE /orders/{id} - cancel

Notifications

- + POST /notifications/subscribe - webhook subscription
- + DELETE /notifications/{id} - unsubscribe

(schema changed Sept 2024 - TBC)

Known Gaps

- + Error codes not documented
- + Rate limits not confirmed post-Redis change
- + SDK docs still in Confluence (link broken as of Oct 2024)
