

# System Architecture - Microservices Migration

Version: v2.0-FINAL  
Author: James Turner  
Date: 2023-04-10  
Status: APPROVED

**WARNING: Superseded by v3. Check with Platform team before referencing this.**

## Overview

Approved microservices architecture after review by Platform and Security teams.

## Components

- + API Gateway: AWS API Gateway
- + Auth Service: Keycloak on EKS
- + Product Service: FastAPI on EKS
- + Order Service: Node.js on EKS
- + Databases: PostgreSQL (RDS) per service
- + Cache: Redis (ElastiCache)

## Deployment

Services deployed to EKS via Helm charts. See Deployment\_Guide\_AWS\_v2.pdf.

## Review Sign-off

- + Platform: Sarah Kim (2023-04-09)
- + Security: Mike O'Brien (2023-04-10)
