

Architecture Review - Meeting Notes Q1 2024

Version:	N/A
Author:	James Turner (scribe)
Date:	2024-01-15
Status:	FOR REFERENCE

Attendees

James Turner, Sarah Kim, Priya Mehta, Carlos R., Mike O'Brien, David Chen (CTO)

Key Decisions

- + Proceed with microservices v3 architecture (David approved)
- + Redis to be upgraded to cluster mode by end of January
- + API v2 to be released Q2 2024
- + Runbooks to be 'written up properly at some point' (action: Mike)

Action Items

- + James: update Architecture doc to v3 by Jan 31
- + Carlos: test DB failover runbook in staging (still outstanding as of March)
- + Priya: finish API v2 docs (in progress)
- + Mike: create incident response runbook (still DRAFT)
- + All: agree on a docs solution - Confluence vs something else
Decision deferred again. Will revisit in Q2.

Quote of the Meeting

'I can never find anything. Where do we even keep our docs?' - David Chen
