

New Engineer Onboarding Checklist

Version: unknown
Author: HR + DevOps (unclear)
Date: 2023-01-01
Status: INCOMPLETE - DO NOT SEND TO NEW HIRES

WARNING: Half of the links in this document are broken. Do not use until updated.

Access Requests

- + ☐ GitHub org invite (ask James)
- + ☐ AWS console access (raise ticket with IT - takes 3-5 days)
- + ☐ Jira access (link: [BROKEN])
- + ☐ Confluence access (link: [BROKEN])
- + ☐ PagerDuty (ask Mike - if he remembers)

Tools to Install

- + Docker Desktop
- + kubectl (version TBD - ask DevOps)
- + AWS CLI v2
- + See the dev setup doc... somewhere on Confluence

Reading List

- + System Architecture doc (check which version is current)
- + API Reference (check which version is current)
- + Deployment Guide (check which version is current)
- + Runbooks (most are DRAFT)

Who Does What

See the org chart PDF... which may also be out of date.
